Discover your home at Compart and conquer the digital future of customer communication with us as

Software Developer C*

Full time. Permanent. Now.

Together with our 170 employees we have been developing smart Software Solutions for over 25 years. As an international IT company based in Böblingen, Germany (near Stuttgart), our goal is to optimize value creation in customer communication through modern omnichannel platforms. This means that documents and content of any type and format can be processed, distributed and made accessible in any systems and channels. We are a leading provider of Document & Content Technology Solutions and inspire our customers with our innovative excellent wolrd-class technologies.

Your responsibilities:

- Independent contribution in an agile team working on medium and large scaled products
- Maintenance and development of basic components in C for the conversion and optimization of print data streams, fonts, file and image formats throughout the entire product life cycle for e. g. Windows, Linux, MacOS, Solaris, AIX
- Conception of toolkit programming interfaces for connecting basic components to various programming languages, e. g. Java, JavaScript, C#, C++ and C
- Development and improvement of algorithms, e. g. for rendering and image processing
- Maintenance and development of tools for automatic code generation
- Mutual code reviews, compliance with code guidelines with clean code, continuous integration and refactoring
- Providing information for our technical writers for the preparation of product documentation
- Work organisation with tools such as SVN, GIT, Jenkins, JIRA und Confluence
- Close cooperation with our product management team and other colleagues

Your profile:

- Successful study of informatics, mathematics, sciences or comparable qualifications
- 3 to 5 years of working experience
- Good knowledge and practical experience in platform independent programming
- Basic knowledge of java and other programming languages are desired
- Affinity towards topics such as data streaming (e. g. AFP, PCL, PostScript), document formats (e. g. XSL-FO, HTML, SVG, PDF), image formats (e. g. TIF, JPEG, PNG), communication protocols, algorithm and data structures
- Teamplayer with communication skills and the ability to cooperate
- Analytical, methodical, independent and well structured working approach
- Good knowledge of the English language

Our Benefits for You:

Living and working by shared values such as integrity, trust, and respect

International working environment, outstanding team spirit

Flat hierarchies, short decision making processes, open door policy

Compart Academy, individual development, language courses free of charge

Work-life balance, home office, parent-child office
